

Panoutsakopoulou V, Spring P, Cort L, Sylvester JE, Blank KJ, Blankenhorn EP. 1997. Microsatellite typing of CXB recombinant inbred and parental mouse strains. *Mammalian Genome*, 8:357-361. / Panoutsakopoulou V, Little CS, Sieck TG, Blankenhorn EP, Blank KJ. 1998. Differences in the immune response during the acute phase of E-55+MuLV infection in progressor BALB and long-term nonprogressor C57BL mice. *The Journal of Immunology*, 161:17-26. / Panoutsakopoulou V, Hunter K, Sieck TG, Blankenhorn EP, Blank KJ. 1999. Genetic regulation of long term nonprogression in E-55+MuLV infection in mice. *Journal of Virology*, 73:9232-9236. / Ashkar S, Weber GF, Panoutsakopoulou V, Sanchirico ME, Jansson M, Zawaideh S, Rittling SR, Denhardt DT, Glimcher MJ, Cantor H. 2000. Eta-1 (Osteopontin): an early component of Type-1 (cell-mediated) immunity. *Science*, 287:860-864. / Panoutsakopoulou V, Sanchirico ME, Huster K, Jansson M, Granucci F, Shim DJ, Wuckerpennig KW, Cantor H. 2001. Analysis of the relationship between viral infection and autoimmune disease. *Immunity*, 15(1):137-147. / Wei MC, Zong W-X, Cheng EH, Lindsten T, Panoutsakopoulou V, Ross AJ, Roth KA, MacGregor GR, Thompson CB, Korsmeyer SJ. 2001. Proapoptotic BAX and BAK: a requisite gateway to mitochondrial dysfunction and death. *Science*, 292:727-730. / Panoutsakopoulou V, Cantor H. 2001. On the relationship between viral infection and autoimmune disease. *Journal of Autoimmunity*, 16:341-345. / Jansson M, Panoutsakopoulou V, Baker J, Klein L, Cantor H. 2002. Attenuated experimental autoimmune encephalomyelitis in Eta-1/Osteopontin-deficient mice. *The Journal of Immunology. Cutting edge*. 168:2096-2099. / Ye Q, Press B, Kissler S, Yang X-F, Lu L, Bassing CH, Sleckman BP, Jansson M, Panoutsakopoulou V, Trimble LA, Alt FW, Cantor H. 2002. T cell costimulation through CD28 depends on induction of the Bcl-x_y isoform: Analysis of Bcl-x_y-deficient mice. *Journal of Experimental Medicine*, 196:87-95. / Panoutsakopoulou V, Huster KM, McCarty N, Feinberg E, Wang R, Wucherpennig KW, Cantor H. 2004. Suppression of autoimmune disease after vaccination with autoreactive T cells that express Qa-1 peptide complexes. *Journal of Clinical Investigation*, 113:1218-1224. / Xanhou G, Alissafi T, Semitekolou M, Simoes D, Economidou E, Gaga M, Lambrecht BN, Lloyd CM, Panoutsakopoulou V. 2007. Osteopontin has a crucial role in allergic airway disease through regulation of dendritic cell subsets. *Nature Medicine*, 13(5): 570-578. / Semitekolou M, Alissafi T, Aggelakopoulou M, Kourepini E, Kariyawasam HH, Kay AB, Robinson DS, Lloyd CM, Panoutsakopoulou V, Xanhou G. 2009. Activin-A induces regulatory T cells that suppress T helper cell immune responses and protect from allergic airway disease. *Journal of Experimental Medicine* 206(8):1769-1785. / Kourepini E, Aggelakopoulou M, Alissafi T, Paschalidis N, Simoes DCM, Panoutsakopoulou V. 2014. Osteopontin expression by CD103⁻ dendritic cells drives intestinal inflammation. *Proceedings of the National Academy of Sciences USA*, 111(9):E856-65. / Kourepini E, Paschalidis N, Simoes DC, Aggelakopoulou M, Grogan JL, Panoutsakopoulou V. 2016. TIGIT enhances antigen-specific Th2 recall responses and allergic disease. *The Journal of Immunology*, 196(9):3570-3580. / Aggelakopoulou M, Kourepini E, Paschalidis N, Panoutsakopoulou V. 2016. ERβ in CD4⁺ T cells is crucial for ligand-mediated suppression of central nervous system autoimmunity. *The Journal of Immunology*, 196(12):4947-4956. / Aggelakopoulou M, Kourepini E, Paschalidis N, Simoes DC, Kalavrizioti D, Dimisianos N, Papathanasopoulos P, Mouzaki A, Panoutsakopoulou V. 2016. ERβ-dependent direct suppression of human and murine Th17 cells and treatment of established central nervous system autoimmunity by a neurosteroid. *The Journal of Immunology*, 197(7):2598-2609. / Alissafi T, Kourepini E, Simoes DCM, Paschalidis N, Aggelakopoulou M, Sparwasser T, Boon L, Hammad H, Lambrecht BN, Panoutsakopoulou V. 2018. Osteopontin promotes protective antigenic tolerance against experimental allergic airway disease. *The Journal of Immunology*, 200(4):1270-1282.
